

Community Action Opportunities
HELPING PEOPLE. CHANGING LIVES.

Cooperative Exchange between Head Start and the United Kingdom's *SureStart* program. Visit to Community Action Opportunities on February 20, 2008

Jerrie gave an overview of our area, our agency and our program.
We then had an opportunity to discuss similarities and differences
between Head Start and *SureStart*.

The team then went and visited our Lonnie D. Burton Child and Family
Development Center

There they were able to see children in the center's Outdoor Learning Environment.

In the center the team saw our high quality classrooms and spoke with each teacher.

They were interested in how we utilized Second Step, a violence-prevention curriculum designed to reduce impulsive and aggressive behavior in children by increasing their social competency.

The also were interested in our weekly lesson plans and how we individualize them for each child based upon the child's needs.

It was a fun visit and a great opportunity to share our excellent program and learn about early childhood education in another country.
